

## Sharing the Airspace with Gliders and Others

Did you know that gliders will be operating out of Sanford Airport this spring? Learn all about the special operating characteristics, right of way rules, and review how to safely share the airspace with aircraft of all types. We'll review traffic pattern operations including non-standard operations and tow planes flying with gliders attached or dangling ropes! As a special bonus we'll also talk about what it takes to get your glider rating, details about the new Sanford Soaring Club, and an overview of glider-specific flight considerations. Click the link below and register TODAY.

**Directions:** Take I-95 to Exit 19. Go north on Route 109 for 7.5 miles. Southern Maine Aviation will be on your left behind the Lucas Country Store (1.5 miles from intersection of route 4 and 109. Join us at Southern Maine Aviation next to the Cockpit Cafe in the main terminal building on the northwest ramp.

### A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
